"Brother, can you spare a dime?" The Great Depression, 1929-1941

Grade Level: Seventh and Eighth Grade

Presented by: Carla Dobbs, John Johnson Elementary, Bainbridge, Georgia

Length of Unit: Nine Lessons, Thirteen Weeks

I. ABSTRACT

During the Great Depression, the phrase "Brother, can you spare a dime," came to epitomize the indignity and hopelessness many Americans felt about unemployment and their inability to sustain themselves. Americans had suffered the stock market crash; the middle class had lost their jobs and homes; Farmers in Texas and Oklahoma had been forced to flee the Dust Bowl. And thousands of Americans were unemployed and homeless. But Americans did persevere. They did regain their dignity. And America did work its way out of the Depression.

Students will investigate the events which precipitated the Great Depression. By researching the lives of individuals who experienced this, the students will gain an appreciation for the hardships endured by a majority of Americans. Students will examine the initiatives and programs which made up Roosevelt's New Deal and the lasting legacy of these programs. And the students will study the art and literature which were commissioned as a part of the New Deal to determine how they reflect the mood of the period.

It is hoped that by the end of this unit the students will have gained an understanding of the root causes of the depression and an appreciation of the human spirit which can overcome even in the most trying of times.
